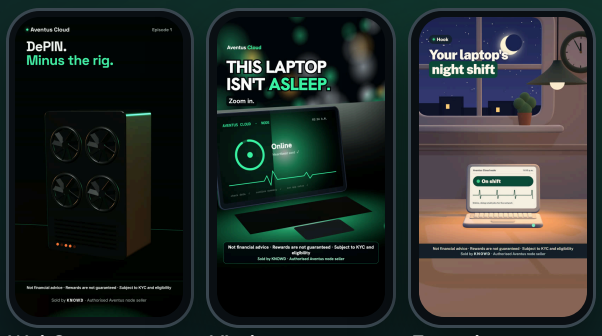
Aventus Cloud · Social plan for KNOWD · by Sprea

Buyers who already trust Knowd before they check out.

We run Knowd's Aventus Cloud channels on YouTube, TikTok, Instagram and X. Two videos a day on each, every one pointing at the node briefing.



Web3 · Viral · Everyday

Day one: the leak is the checkout.

- **A buyer tried to pay three times, then gave up.** The email worked. The last step lost the sale.
- **Fix: CryptoPayLink card checkout,** ready to switch on. No wallet, no seed phrase.

Email · 6-digit code · Card or Apple Pay · One tap

Why the email needs socials.

- **People check before they buy.** They click, then search. Nothing to find ends the sale.
- **Video answers the questions** buyers have before they pay.
- **Every video points to the briefing,** so followers become a list Knowd owns.

2 a day each. Knowd's own labeled accounts. No reward or price talk. US first; UK educational until counsel signs off.

Say yes: we switch on card checkout and the accounts are posting within 7 days.

Approve and switch on

Not financial advice. Rewards are not guaranteed. Node licenses are subject to KYC and eligibility restrictions and are sold by Knowd under Knowd's own terms; Aventus DAO is not a party to the sale. Platform logos belong to their owners.
